

**Blast Type:** Mass Excavation  
**Blast Location:** Between Carpenter Fire Station Road and McCrimmon Parkway  
and between Green Hope School Road and Panther Creek.  
**Date/Time:** Week of April 26, 2010 – Daily between 8:00 a.m. and 5:00 p.m.

**Blasting Information:**

As the work on the Western Wake Freeway progresses, part of the key activities will include blasting during excavation. The aim of the blasts is to remove the rock in preparation for construction.

Blasting operations are highly dependent on weather conditions and other factors. Minor deviations to the provided timeframes are possible. If there is a major delay or cancellation, a revised notice will be posted.

Property owners who fall within the area that may be affected will receive specific advance notice prior to the blasting.
